

AIR SCRUBBER ADVANCED

BY AERUS

WITH CERTIFIED SPACE TECHNOLOGY™

ActivePure® Technology that attaches directly to the HVAC system ductwork to remove air pollution, VOCs, surface contaminants, pet dander, odors and dust, resulting in a cleaner, healthier and more efficient home. The perfect solution for homeowners and businesses who want to reduce and eliminate harmful contaminants.

New & Improved Patented Cell Design

HOW IT WORKS

- Our proprietary ActivePure® Technology uses light waves and a catalytic process to produce scrubber ions that remove dust particles from the air
- Certified Space Technology continuously protects and purifies the air, and attacks contaminants on all surfaces
- Proven effective in University studies on various contaminants in the air and on surfaces
- Installed by a professional directly to the existing HVAC system ductwork

Text

BENEFITS

- ActivePure Technology removes or destroys up to 99% of all surface and airborne contaminants
- Significantly reduces dust, pet dander and odors in the home
- Purifies air, removes VOCs, and significantly reduces odors
- Protects people from dangerous contaminants and pollutants, and protects heating and cooling system from dust buildup
- Creates healthy, pure indoor spaces
- Available in ozone and ozone-free models
- Coverage up to 3,000 sq. ft.

SPECIFICATIONS:

Air Scrubber Advanced	9960055 NOTE: This unit does not meet California requirements and cannot be shipped in California 9960054 (Ozone Free) Model A1013R
Power requirements	Input Voltage: 24V 1A
Weight	3 lbs.
Dimensions	8.5" high x 8.5" wide x 11" deep
Air exchange	Distribution via air handler
Coverage	Up to 2,000 sq. ft. Nominal, 3,000 sq. ft. Maximum

2017 Space Technology
Hall of Fame Inductee

The ActivePure® Technology built into each Air Scrubber Advanced is based on a variation of the technology originally developed for use on the International Space Station and is recognized as the exclusive Certified Space Technology™ in its category.
